

saveONenergyTM
FOR BUSINESS

Save with up to \$1,000 in Free Lighting Upgrades

Energy-efficient lighting retrofits help you save now and into the future

The **SMALL BUSINESS LIGHTING** program offers businesses like yours up to \$1,000 in free, energy-efficient upgrades – improvements that will help you manage your electricity costs for years to come.

If you participate, an energy advisor will come to your business, conduct an energy assessment and provide you with a list of recommended upgrades with a value of up to \$1,000. If you choose to have that work done, there is absolutely no cost to you.

Your participation in the **SMALL BUSINESS LIGHTING** program will help you manage your electricity costs and demonstrate your support for a cleaner environment.

Who is eligible for the **SMALL BUSINESS LIGHTING** program?

This program is for small business owners and tenants who are customers of Toronto Hydro with a general service account of less than 50 kW. If you are unsure of your account type, please call Toronto Hydro. Bulk and sub-meter customers may also apply for this program. If you're not the building owner, you'll need the landlord's permission for these upgrades.

Why is Toronto Hydro doing this?

One of Toronto Hydro's goals is to help customers get the best value for their electricity dollar. This is a cost-effective way for businesses like yours to improve their energy efficiency, and also helps Toronto Hydro reduce the demand on our distribution system.

Sign up today at torontohydro.com/lightingforbiz If you have any questions, please call us at 416.599.9210, Monday to Friday, from 8 A.M. to 4 P.M.

Yours truly,

Chris Tyrrell
